Step 1: Execute SOQL statements

1.In the Developer Console, click the Query Editor tab at the bottom of the window

2.Enter the following SOQL statement and click the Execute button to retrieve conference sessions:

SELECT Id, Name, Session_Date__c, Level__c FROM Session__c

3.Execute the following statement to retrieve the beginner sessions (assuming you created any):

SELECT Id, Name, Session_Date__c, Level__c FROM Session__c

WHERE Level__c ='Beginner'

4. Execute the following statement to retrieve a list of speakers ordered by first name and last name:

SELECT Id, First_Name__c, Last_Name__c, Email__c FROM Speaker__c

   ORDER BY First_Name__c, Last_Name__c
